

When you need a wine to share with the table or if you just want an easy pleasing wine, look no further!

Druid's Fluid is a premium blend made each year at Troon Vineyard.

Starting in the vineyard with intentional farming, we grow specific blocks to create this wine. Every year the blend will change based on the grapes available from our farm and climate factors at play. Our aim is to make the most complete expression that reflects our Southern Oregon terroir in a "Cotes du Rhone" style blend.

Expect this wine to show crunchy red fruit like fresh cranberry, tart pomegranate, and ripe red cherries with undertones of herbaceousness and pepper, which compliment the fruit excellently.

Hand sorted, whole cluster additions, steel tank and bin fermentations.
