

# TROON VINEYARD

## 2020 Syrah

### Applegate Valley Oregon

Troon Vineyard is a Demeter Biodynamic® Regenerative Organic Certified™ farm in Oregon's Applegate Valley. We naturally craft wines to bring pleasure to your life. All Troon wines are made from Biodynamic grapes spontaneously fermented with indigenous yeasts with no additives of any kind.

**On the label:** Valerian by Oregon artist Janet Ekholm. Valerian is used to make Biodynamic Preparation 507, a liquid preparation that stimulates the phosphorus processes in the soil and forms a sort of warm, protective blanket around the compost, like the skin of an organism. It also has a secondary role in regulating magnesium and selenium.

Applegate Valley syrah is more restrained and elegant than most new world syrah wines. Our unique growing season is ideal for syrah and naturally yields wines with moderate alcohol levels and elevated acidity. At Troon, our Estate Syrah is layered with the black and white pepper notes that define the Rhône Valley's most sought-after wines from this variety. The 2020 Troon Vineyard Estate Syrah is a savory wine with a rich but balanced personality that will develop even more complexity with time in the cellar.

#### Winemaker Notes from Nate Wall

This 2020 Estate Syrah was harvested and put into open top bins with, on average, 33% whole cluster. The inclusion of whole clusters can enhance syrah's spice and pepper characteristics while broadening the mid-palate and bringing more freshness to the wine. The ferments started spontaneously from indigenous yeasts and proceeded to ferment outside until they finished roughly three to four weeks later. The wine was pressed off to age in neutral French oak barrels for 18 months prior to being bottled unfinned and unfiltered with a small dose of sulfur added at bottling.

13.9% alcohol, 250 cases produced
